A LOOK BACK ON THE COMPETENCIES FORUM HELD ON SEPTEMBER 26th

CMAI would like to express its immense gratitude to the **136 participants** who took part in the first edition of the Forum, which was a real success! Our thanks also go to Concordia and the wonderful CIADI team.

The Forum was an opportunity for companies, educational institutions and students to meet and discuss skills needs in the mobility sectors.

To address the skills needs presented, we will start building collaborative solutions in the form of Work Integrated learning activities.

Follow us on [LinkedIn](#) over the coming months to keep track of the learning activities we'll be developing with companies and educational institutions.

We look forward to seeing you at the second edition next year.
