ON THE RADAR

British Columbia: salary disclosure on position postings

British Columbia's Pay Transparency Act came into force on November 1. All job postings must now indicate the salary or salary range offered. The aim is to reduce wage discrimination and offer greater transparency.

In Ontario, pay transparency legislation has been in force since 2018.

Quebec has yet to impose any measures. A trend is emerging nationwide to improve pay equity.

A new campus for École de technologie supérieure (ÉTS) in Longueuil

École de technologie supérieure (ÉTS) has announced plans to open an engineering campus in Longueuil. The heart of the aerospace engineering department will be located at the foot of the Saint-Hubert airport runways.

ÉTS will be able to take advantage of the presence of its partners, the École nationale d'aérotechnique (ÉNA) and the Centre technologique en aérospatiale (CTA), to combine their complementary training programs and strengthen the training and research ecosystem.

FUNDING ANNOUNCEMENT

The Canadian Mobility and Aerospace (CMAI) announces financial assistance from the Ministère de l'Économie, de l'Innovation et de l'Énergie as part of its NovaScience program. CMAI is receiving this funding for the 1st edition of its Competencies Forum -Innovation in the Mobility Sectors.

The funding will enable the creation of at least five experiential activities aimed at developing skills in the mobility sectors. Skills development projects will be identified and carried out in collaboration with educational institutions

over the coming year to offer students short and medium-term experiential activities.

With its focus on collaboration and networking, the Forum aims to accelerate skills development to better support the industry's transformation towards a more sustainable and inclusive economy.
